

TENNESSEE'S ELECTRIC CO-OPS

POWERING EVERYDAY LIFE FOR RURAL AND SUBURBAN TENNESSEE

MEMBER OWNED AND REGULATED

Electric co-ops are owned by the people they serve, not by government. Members elect directors to represent their interests and set policy and procedures for the co-op.

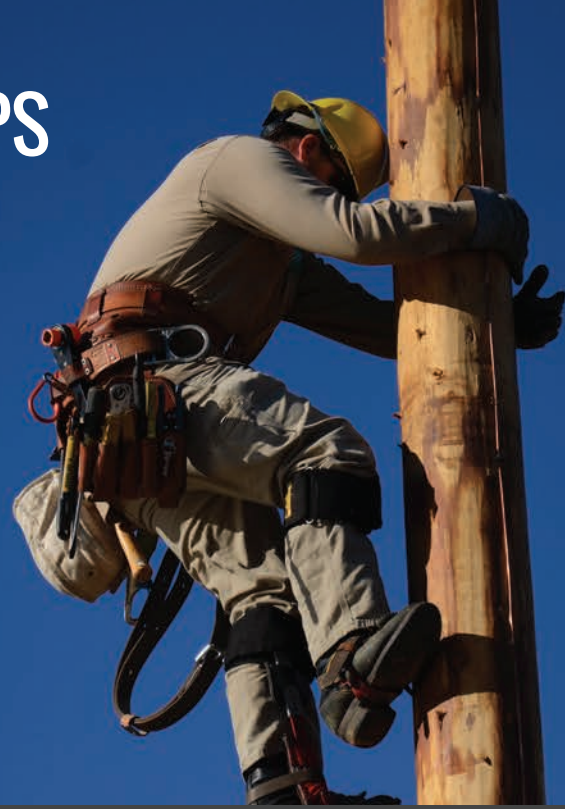

NOT FOR PROFIT

Co-ops exist to serve their communities instead of shareholders. We distribute and sell energy to our members at cost and invest excess revenues back into the electric system.

IMPROVE COMMUNITIES

Electric co-ops work to improve everyday life in our rural and suburban communities. We do this through reliable energy and efforts in education and community development.
